HAT Inhibitor Screening Assay Kit

Catalog # KA1318 Size 1 Kit

Applications

Result Data

Result Data

Interference of garcinol in the assay.

Specification

Product Description	HAT Inhibitor Screening Assay Kit is a fluorescence-based method for screening pCAF HAT inhibitors.
Regulation Status	For research use only (RUO)
Storage Instruction	Store the kit at -20°C.
Note	Result Data Result Data Interference of garcinol in the assay.

Applications

- Functional Study
