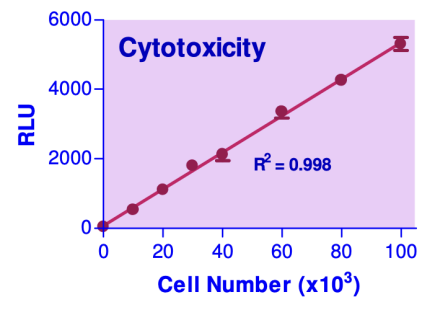
Cytotoxicity Assay Kit

Catalog # KA7512 Size 1 Kit

Applications



Qualitative

Linearity of Luminescence to Cell Number in 96-well plate assay.

Specification

Product Description	Cytotoxicity Assay Kit for rapid, bioluminescent luciferin/luciferase-based assay for cell viability, proliferation, cytotoxicity, and high-throughput screen for anticancer agents.
Available Test	100 tests
Detection Method	Luminescence
Limit of Detection	50 cells
Regulatory Status	For research use only (RUO)
Storage Instruction	Store at -20°C. Avoid multiple freeze-thaw cycles.

Applications

- Qualitative

  Linearity of Luminescence to Cell Number in 96-well plate assay.
