Mycobacterium tuberculosis 38Kd antigen monoclonal antibody, clone B12F8

Catalog # MAB8129 Size 500 ug

Specification

Product Description	Mouse monoclonal antibody raised against recombinant *Mycobacterium tuberculosis* 38Kd antigen.
Immunogen	Recombinant protein corresponding to virulent strain H37Rv of *Mycobacterium tuberculosis* 38Kd antigen.
Host	Mouse
Form	Lyophilized
Isotype	IgG2a
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	Lyophilized from 10 mM PBS
Storage Instruction	Store at -20°C. Aliquot after reconstitution to avoid repeated freezing and thawing.

Applications

- Enzyme Immunoassay
- Western Blot
