IL-1 receptor monoclonal antibody, clone IL1-31-113.1.1

Catalog # MAB8355 Size 200 ug

Specification

Product Description	Mouse monoclonal antibody raised against partial IL-1 receptor.
Immunogen	The extracellular domain of the type I human IL-1 receptor (Genzyme Diagnostics).
Host	Mouse
Reactivity	Human
Specificity	These antibodies react with cell surface and soluble human IL-1 receptor; Specific epitopes are unkn own, but they do partially inhibit (30-50%) binding of one another to IL-1 receptor. They do not block b inding of IL-1 to receptor, and they do not cross-react with receptors for human IL-2 or IL-4.
Form	Liquid
Isotype	IgG2b
Recommend Usage	ELISA (5 ug/mL) Radioimmunoassay (20-30 ng/mL) Immunohistochemistry (10-100 ug/mL) The optimal working dilution should be determined by the end user.
Storage Buffer	In PBS, pH 7.4
Storage Instruction	Store at -20°C. For long term storage store at -80°C. Aliquot to avoid repeated freezing and thawing.

Applications

- Immunohistochemistry
- Enzyme-linked Immunoabsorbent Assay
- Radioimmunoassay
