Triglyceride Assay Kit

Catalog # KA6575 Size 1 Kit

Applications

The standard curve is for the purpose of illustration only and should not be used to calculate unknowns. A standard curve should be generated each time the assay is performed.

Specification

Product Description	Triglyceride Assay Kit is a quantitative determination of triglyceride.
Suitable Sample	Serum, Plasma
Sample Volume	10 uL
Detection Method	Colorimetric
Assay Type	Quantitative
Calibration Range	0.01 - 1.0 mmol/L
Limit of Detection	0.01 mmol/L
Regulatory Status	For research use only (RUO)
Quality Control Testing	Standard curve The standard curve is for the purpose of illustration only and should not be used to calculate unknowns. A standard curve should be generated each time the assay is performed.
Storage Instruction	Store the kit at -20°C.
