Pepsin Inhibitor Assay Kit

Catalog # KA7261 Size 1 Kit

Specification

Product Description	Pepsin Inhibitor Assay Kit uses a fluorescein isothiocyanate (FITC)-labeled synthetic substrate. The fluorescein label is highly quenched. Upon digestion by pepsin present in the sample, the substrate is cleaved into smaller peptides, which abolishes the quenching of the fluorescence label.
Suitable Sample	Compounds that affect pepsin activity
Detection Method	FL485/530nm or FP485/530nm
Regulation Status	For research use only (RUO)
Storage Instruction	Store at -20°C. Avoid repeated freezing and thawing.

Applications

- Qualitative
