Bioactive

10× RNase R Buffer

Catalog # U0853 Size 500 uL

Specification

Product Description	10×RNase R Buffer is a matching reaction buffer for RNase R,and used to digest all linear RNA to en rich circular RNA or lariat RNA.
Form	Liquid
Endotoxin Level	<10 EU/mL
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	200 mM Tris-HCl (pH 8.0), 1 M KCl, 1 mM $MgCl_2$
Storage Instruction	Store at -20°C. Aliquot to avoid repeated freezing and thawing.

Applications

- In vitro Transcription
