

APC & CTNNA1 Protein Protein Interaction Antibody Pair

Catalog # DI0279

Size 1 Set

Applications

Representative image of Proximity Ligation Assay of protein-protein interactions between APC and CTNNA1. HeLa cells were stained with anti-APC rabbit purified polyclonal antibody 1:1200 and anti-CTNNA1 mouse monoclonal antibody 1:50. Each red dot represents the detection of protein-protein interaction complex. The images were analyzed using an optimized freeware (BlobFinder) download from The Centre for Image Analysis at Uppsala University.

Specification

Product Description

This protein protein interaction antibody pair set comes with two antibodies to detect the protein-protein interaction, one against the APC protein, and the other against the CTNNA1 protein for use in [in situ Proximity Ligation Assay](#). [See Publication Reference below](#).

Reactivity

Human

Quality Control Testing

Protein protein interaction immunofluorescence result.

Representative image of Proximity Ligation Assay of protein-protein interactions between APC and CTNNA1. HeLa cells were stained with anti-APC rabbit purified polyclonal antibody 1:1200 and anti-CTNNA1 mouse monoclonal antibody 1:50. Each red dot represents the detection of protein-protein interaction complex. The images were analyzed using an optimized freeware (BlobFinder) download from The Centre for Image Analysis at Uppsala University.

Supplied Product

Antibody pair set content:

1. APC rabbit purified polyclonal antibody (100 ug)
2. CTNNA1 mouse monoclonal antibody (40 ug)

*Reagents are sufficient for at least 30-50 assays using recommended protocols.

Storage Instruction

Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze-thaw cycle. Reagents should be returned to -20°C storage immediately after use.

Applications

- *In situ* Proximity Ligation Assay (Cell)

Gene Info — APC

Entrez GeneID [324](#)

Gene Name APC

Gene Alias BTPS2, DP2, DP2.5, DP3, GS

Gene Description adenomatous polyposis coli

Omim ID [135290](#) [137215](#) [155255](#) [175100](#) [276300](#)

Gene Ontology [Hyperlink](#)

Gene Summary This gene encodes a tumor suppressor protein that acts as an antagonist of the Wnt signaling pathway. It is also involved in other processes including cell migration and adhesion, transcriptional activation, and apoptosis. Defects in this gene cause familial adenomatous polyposis (FAP), an autosomal dominant pre-malignant disease that usually progresses to malignancy. Disease-associated mutations tend to be clustered in a small region designated the mutation cluster region (MCR) and result in a truncated protein product. [provided by RefSeq]

Other Designations adenomatosis polyposis coli tumor suppressor

Gene Info — CTNNA1

Entrez GeneID [1495](#)

Gene Name CTNNA1

Gene Alias CAP102, FLJ36832

Gene Description catenin (cadherin-associated protein), alpha 1, 102kDa

Omim ID [116805](#)

Gene Ontology [Hyperlink](#)

Gene Summary alpha 1

Other Designations alpha-E-catenin|alpha-catenin|alphaE-catenin|cadherin-associated protein,102kDa|catenin (cadherin-associated protein), alpha 1 (102kD)|catenin, alpha 1
