Goat Anti-Human IgG (gamma chain) secondary antibody

Catalog # PAB9293 Size 1 mg

Specification

Product Description	Goat anti-human IgG recognizes human IgG gamma heavy chain. This secondary antibody was purified using antigen affinity chromatography.
Immunogen	Human IgG gamma heavy chain
Host	Goat
Reactivity	Human
Specificity	No reaction was observed against anti-Pepsin or anti-goat IgG F(c). Specificity was confirmed by ELISA at less than 1% cross reactivity against other human heavy or light chain isotypes.
Form	Liquid
Conjugation	Unconjugated
Purification	This product was prepared from monospecific antiserum by immunoaffinity chromatography, followed by solid phase adsorption(s) to remove any unwanted reactivities, pepsin digestion and chromatographic separation.
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	In 100 mM $Na_2B_4O_7$, 75 mM NaCl, 5 mM EDTA, pH 8.0 (0.01% sodium azide)
Storage Instruction	Store at 4°C. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.
Note	This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Applications

- Immunohistochemistry
- Enzyme-linked Immunoabsorbent Assay
