Goat Anti-Human IgG F(ab')2 secondary antibody

Catalog # PAB9301 Size 50 mg

Specification

Product Description	Goat anti-human IgG recognizes human IgG F(ab')2 fragment. This secondary antibody was purified using a multi-step process which includes delipidation, salt fractionation and ion exchange chromato graphy followed by extensive dialysis against the buffer stated above.
Immunogen	Human IgG F(ab')2 fragment
Host	Goat
Reactivity	Human
Form	Lyophilized
Conjugation	Unconjugated
Purification	This product is an IgG fraction antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensiv e dialysis against the buffer stated above.
Recommend Usage	The optimal working dilution should be determined by the end user.
Storage Buffer	In 10 mM sodium phosphate, 150 mM NaCl, pH 7.2
Storage Instruction	Store at 4°C on dry atmosphere. After reconstitution with deionized water, store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Applications

- Immunohistochemistry
- Enzyme-linked Immunoabsorbent Assay
- Western Blot
