

# CD5L (Human) IP-WB Antibody Pair

Catalog # H00000922-PW1

Size 1 Set

## Applications

Immunoprecipitation of CD5L transfected lysate using mouse monoclonal anti-CD5L and Protein A Magnetic Bead ([U0007](#)), and immunoblotted with rabbit polyclonal anti-CD5L.

## Specification

|                                      |                                                                                                                                                                                                                                        |
|--------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Description</b>           | This IP-WB antibody pair set comes with one antibody for immunoprecipitation and another to detect the precipitated protein in western blot.                                                                                           |
| <b>Reactivity</b>                    | Human                                                                                                                                                                                                                                  |
| <b>Interspecies Antigen Sequence</b> | Mouse (68%); Rat (67%)                                                                                                                                                                                                                 |
| <b>Quality Control Testing</b>       | Immunoprecipitation-Western Blot (IP-WB)<br>Immunoprecipitation of CD5L transfected lysate using mouse monoclonal anti-CD5L and Protein A Magnetic Bead ( <a href="#">U0007</a> ), and immunoblotted with rabbit polyclonal anti-CD5L. |
| <b>Supplied Product</b>              | Antibody pair set content:<br>1. Antibody pair for IP: mouse monoclonal anti-CD5L (300 ug)<br>2. Antibody pair for WB: rabbit polyclonal anti-CD5L (50 ul)                                                                             |
| <b>Storage Instruction</b>           | Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.                                                     |
