

CDH11 monoclonal antibody (M10), clone 1B9

Catalog # H00001009-M10

Size 100 ug

Applications

Western Blot detection against CHD11-His tag (61.49 KDa).

Specification

Product Description

Mouse monoclonal antibody raised against a partial recombinant CDH11.

Immunogen

CDH11 (P55287, 54 a.a. ~ 612 a.a) partial recombinant protein with Fc tag at C terminal. MW of the Fc tag alone is 50 KDa.

NTLTIKVC GCDVNGALLSCNAEAYILN

Host

Mouse

Reactivity

Human

Interspecies Antigen Sequence

Mouse (97); Rat (98)

Isotype

IgG1 Kappa

Quality Control Testing

Antibody Reactive Against Recombinant Protein.
Western Blot detection against CHD11-His tag (61.49 KDa).

Storage Buffer

In 1x PBS, pH 7.4

Storage Instruction

Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Applications

- Western Blot (Recombinant protein)

[Protocol Download](#)

- ELISA

Gene Summary

This gene encodes a type II classical cadherin from the cadherin superfamily, integral membrane proteins that mediate calcium-dependent cell-cell adhesion. Mature cadherin proteins are composed of a large N-terminal extracellular domain, a single membrane-spanning domain, and a small, highly conserved C-terminal cytoplasmic domain. Type II (atypical) cadherins are defined based on their lack of a HAV cell adhesion recognition sequence specific to type I cadherins. Expression of this particular cadherin in osteoblastic cell lines, and its upregulation during differentiation, suggests a specific function in bone development and maintenance. [provided by RefSeq]

Other Designations

OB-cadherin|cadherin 11, type 2|cadherin-11|osteoblast cadherin
