

MaxPab®

# HAPLN1 purified MaxPab rabbit polyclonal antibody (D01P)

Catalog # H00001404-D01P

Size 100 ug

## Applications

### Western Blot (Transfected lysate)

Western Blot analysis of HAPLN1 expression in transfected 293T cell line ([H00001404-T03](#)) by HAPLN1 MaxPab polyclonal antibody.

Lane 1: HAPLN1 transfected lysate(40.20 KDa).

Lane 2: Non-transfected lysate.

## Specification

|                         |                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Description     | Rabbit polyclonal antibody raised against a full-length human HAPLN1 protein.                                                                                                                                                                                                                                                                                                   |
| Immunogen               | HAPLN1 (NP_001875.1, 1 a.a. ~ 354 a.a) full-length human protein.                                                                                                                                                                                                                                                                                                               |

| Reactivity              | Human                                                                                                                                                                                                                                                                                                                                                                           |
| Quality Control Testing | Antibody reactive against mammalian transfected lysate.                                                                                                                                                                                                                                                                                                                         |
| Storage Buffer          | In 1x PBS, pH 7.4                                                                                                                                                                                                                                                                                                                                                               |
| Storage Instruction     | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                                                                                                                                                                        |

## Applications

- Western Blot (Transfected lysate)

Western Blot analysis of HAPLN1 expression in transfected 293T cell line ([H00001404-T03](#)) by HAPLN1 MaxPab polyclonal antibody.

Lane 1: HAPLN1 transfected lysate(40.20 KDa).

Lane 2: Non-transfected lysate.
