

HPX (Human) IP-WB Antibody Pair

Catalog # H00003263-PW1

Size 1 Set

Applications

Immunoprecipitation of HPX transfected lysate using mouse monoclonal anti-HPX and Protein A Magnetic Bead ([U0007](#)), and immunoblotted with rabbit polyclonal anti-HPX.

Specification

Product Description	This IP-WB antibody pair set comes with one antibody for immunoprecipitation and another to detect the precipitated protein in western blot.
Reactivity	Human
Quality Control Testing	Immunoprecipitation-Western Blot (IP-WB) Immunoprecipitation of HPX transfected lysate using mouse monoclonal anti-HPX and Protein A Magnetic Bead (U0007), and immunoblotted with rabbit polyclonal anti-HPX.
Supplied Product	Antibody pair set content: 1. Antibody pair for IP: mouse monoclonal anti-HPX (300 ug) 2. Antibody pair for WB: rabbit polyclonal anti-HPX (50 ul)
Storage Instruction	Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.

Applications

- Immunoprecipitation-Western Blot

Gene Info — HPX

Entrez GeneID	3263
Gene Name	HPX
Gene Alias	-
Gene Description	hemopexin
Omim ID	142290
Gene Ontology	Hyperlink
Gene Summary	This gene encodes a plasma glycoprotein that binds heme with high affinity. The encoded protein is an acute phase protein that transports heme from the plasma to the liver and may be involved in protecting cells from oxidative stress. [provided by RefSeq]
Other Designations	-
