

# IL13 (Human) Recombinant Protein (Q01)

Catalog # H00003596-Q01

Size 25 ug, 10 ug

## Applications

## Specification

|                                |                                                                                                                       |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Product Description</b>     | Human IL13 partial ORF ( NP_002179, 35 a.a. - 146 a.a.) recombinant protein with GST-tag at N-terminal.               |
| <b>Sequence</b>                | GPVPPSTALRELIEELVNITQNQKAPLCNGSMVWSINLTAGMYCAALES LINVSGCSAIEKTQRMLS<br>GFCPHKVSAGQFSSLHVRDTKIEVAQFVKDLLLHLKKLFREGQFN |
| <b>Host</b>                    | Wheat Germ (in vitro)                                                                                                 |
| <b>Theoretical MW (kDa)</b>    | 38.06                                                                                                                 |
| <b>Preparation Method</b>      | <a href="#">in vitro wheat germ expression system</a>                                                                 |
| <b>Purification</b>            | Glutathione Sepharose 4 Fast Flow                                                                                     |
| <b>Quality Control Testing</b> | 12.5% SDS-PAGE Stained with Coomassie Blue.                                                                           |
| <b>Storage Buffer</b>          | 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer.                                              |
| <b>Storage Instruction</b>     | Store at -80°C. Aliquot to avoid repeated freezing and thawing.                                                       |
| <b>Note</b>                    | Best use within three months from the date of receipt of this protein.                                                |

## Applications

- Enzyme-linked Immunoabsorbent Assay
- Western Blot (Recombinant protein)
- Antibody Production
- Protein Array

## Gene Info — IL13

Entrez GeneID [3596](#)

GeneBank Accession# [NM\\_002188](#)

Protein Accession# [NP\\_002179](#)

Gene Name IL13

Gene Alias ALRH, BHR1, IL-13, MGC116786, MGC116788, MGC116789, P600

Gene Description interleukin 13

Omim ID [147683 600807 607154](#)

Gene Ontology [Hyperlink](#)

**Gene Summary** This gene encodes an immunoregulatory cytokine produced primarily by activated Th2 cells. This cytokine is involved in several stages of B-cell maturation and differentiation. It up-regulates CD23 and MHC class II expression, and promotes IgE isotype switching of B cells. This cytokine down-regulates macrophage activity, thereby inhibits the production of pro-inflammatory cytokines and chemokines. This cytokine is found to be critical to the pathogenesis of allergen-induced asthma but operates through mechanisms independent of IgE and eosinophils. This gene, IL3, IL5, IL4, and CSF2 form a cytokine gene cluster on chromosome 5q, with this gene particularly close to IL4. [provided by RefSeq]
