

CX Grade

IL15 monoclonal antibody (M06J), clone 3A3

Catalog # H00003600-M06J

Size 100 ug

Specification

Product Description	Mouse monoclonal antibody raised against a full-length recombinant IL15. This product is belong to Cell Culture Grade Antibody (CX Grade).
Immunogen	IL15 (NP_000576.1, no aaStart a.a. ~ no aaEnd a.a) full-length recombinant protein with GST tag.
Host	Mouse
Reactivity	Human
Preparation Method	Cell Culture Production
Isotype	IgG2a Kappa
Quality Control Testing	Antibody Reactive Against Recombinant Protein.
Storage Buffer	In 1x PBS, pH 7.4
Storage Instruction	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Applications

- ELISA

Gene Info — IL15

Entrez GeneID	3600
GeneBank Accession#	NM_000585.2
Protein Accession#	NP_000576.1
Gene Name	IL15

Gene Alias	IL-15, MGC9721
Gene Description	interleukin 15
Omim ID	600554
Gene Ontology	Hyperlink
Gene Summary	The protein encoded by this gene is a cytokine that regulates T and natural killer cell activation and proliferation. This cytokine and interleukine 2 share many biological activities. They are found to bind common hematopoietin receptor subunits, and may compete for the same receptor, and thus negatively regulate each other's activity. The number of CD8+ memory cells is shown to be controlled by a balance between this cytokine and IL2. This cytokine induces the activation of JAK kinases, as well as the phosphorylation and activation of transcription activators STAT3, STAT5, and STAT6. Studies of the mouse counterpart suggested that this cytokine may increase the expression of apoptosis inhibitor BCL2L1/BCL-x(L), possibly through the transcription activation activity of STAT6, and thus prevent apoptosis. Two alternatively spliced transcript variants of this gene encoding the same protein have been reported. [provided by RefSeq]
Other Designations	OTTHUMP00000164617
