

DNAxPAb

Hard-to-Find  
Antibody

# TEAD3 DNAxPab

Catalog # H00007005-W01P

Size 200 ug

## Specification

|                                |                                                                                                                                                                                                                                                                                                                                                        |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Description</b>     | Rabbit polyclonal antibody raised against a full-length human TEAD3 DNA using DNAx™ Immune technology.                                                                                                                                                                                                                                                 |
| <b>Technology</b>              | <a href="#">DNAx™ Immune</a>                                                                                                                                                                                                                                                                                                                           |

| <b>Quality Control Testing</b> | Antibody reactive against mammalian transfected lysate.                                                                                                                                                                                                                                                                                                |
| <b>Storage Buffer</b>          | In 1x PBS, pH 7.4                                                                                                                                                                                                                                                                                                                                      |
| <b>Storage Instruction</b>     | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                                                                                                                                               |

## Applications

- Western Blot (Transfected lysate)

[Protocol Download](#)

- Immunofluorescence (Transfected cell)

- Flow Cytometry (Transfected cell)

## Gene Info — TEAD3

**Entrez GeneID** [7005](#)**GeneBank Accession#** [BC027877.1](#)**Protein Accession#** [AAH27877.1](#)**Gene Name** TEAD3**Gene Alias** DTEF-1, ETFR-1, TEAD5, TEF-5, TEF5**Gene Description** TEA domain family member 3**Omim ID** [603170](#)**Gene Ontology** [Hyperlink](#)

**Gene Summary** This gene product is a member of the transcriptional enhancer factor (TEF) family of transcription factors, which contain the TEA/ATTS DNA-binding domain. It is predominantly expressed in the placenta and is involved in the transactivation of the chorionic somatomammotropin-B gene enhancer. Translation of this protein is initiated at a non-AUG (AUA) start codon. [provided by RefSeq]
