## SKAP2 DNAxPab

Catalog # H00008935-W01P

Size 200 ug

### Specification

|                         |                                                                                                           |
|-------------------------|-----------------------------------------------------------------------------------------------------------|
| Product Description     | Rabbit polyclonal antibody raised against a partial-length human SKAP2 DNA using DNAx™ Immune technology. |
| Technology              | <a href="#">DNAx™ Immune</a>                                                                              |
| Immunogen               | Extracellular membrane domain (ECD) human DNA                                                             |
| Host                    | Rabbit                                                                                                    |
| Reactivity              | Human                                                                                                     |
| Purification            | Protein A                                                                                                 |
| Quality Control Testing | Antibody reactive against mammalian transfected lysate.                                                   |
| Storage Buffer          | In 1x PBS, pH 7.4                                                                                         |
| Storage Instruction     | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                  |

### Applications

- Western Blot (Transfected lysate)

[Protocol Download](#)

- Immunofluorescence (Transfected cell)
- Flow Cytometry (Transfected cell)

### Gene Info — SKAP2

| Gene Summary        | The protein encoded by this gene belongs to the src family kinases. This protein is similar to the src kinase associated phosphoprotein 1. It is an adaptor protein that is thought to play an essential role in the src signaling pathway in various cells. It inhibits PTK2B/RAFTK activity and regulates alpha-synuclein phosphorylation. [provided by RefSeq] |
| Other Designations  | Fyn-associated phosphoprotein SKAP55 homologue Pyk2/RAFTK-associated protein src family associated phosphoprotein 2 src kinase-associated phosphoprotein of 55-related protein src-associated adaptor protein                                                                                                                                                     |
