| <b>Storage Buffer</b>          | In 1x PBS, pH 7.4                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Storage Instruction</b>     | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

### Applications

- Western Blot (Transfected lysate)

[Protocol Download](#)

- Immunofluorescence (Transfected cell)
- Flow Cytometry (Transfected cell)

## Gene Info — N4BP2L2

**Entrez GeneID** [10443](#)

**GeneBank Accession#** [NM\\_014887.1](#)

**Protein Accession#** [NP\\_055702.1](#)

**Gene Name** N4BP2L2

**Gene Alias** 92M18.3, CG005, FLJ36195, FLJ41089, FLJ43077, PFAAP5

**Gene Description** NEDD4 binding protein 2-like 2

**Gene Ontology** [Hyperlink](#)
