

# MYBBP1A (Human) IP-WB Antibody Pair

Catalog # H00010514-PW1

Size 1 Set

## Applications

Immunoprecipitation of MYBBP1A transfected lysate using rabbit polyclonal anti-MYBBP1A and Protein A Magnetic Bead ([U0007](#)), and immunoblotted with mouse polyclonal anti-MYBBP1A.

|                                      |                                                                                                                                                                                                                                                 |
|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Description</b>           | This IP-WB antibody pair set comes with one antibody for immunoprecipitation and another to detect the precipitated protein in western blot.                                                                                                    |
| <b>Reactivity</b>                    | Human                                                                                                                                                                                                                                           |
| <b>Interspecies Antigen Sequence</b> | Mouse (69); Rat (68)                                                                                                                                                                                                                            |
| <b>Quality Control Testing</b>       | Immunoprecipitation-Western Blot (IP-WB)<br>Immunoprecipitation of MYBBP1A transfected lysate using rabbit polyclonal anti-MYBBP1A and Protein A Magnetic Bead ( <a href="#">U0007</a> ), and immunoblotted with mouse polyclonal anti-MYBBP1A. |
| <b>Supplied Product</b>              | Antibody pair set content:<br>1. Antibody pair for IP: rabbit polyclonal anti-MYBBP1A (300 ul)<br>2. Antibody pair for WB: mouse polyclonal anti-MYBBP1A (50 ul)                                                                                |
| <b>Storage Instruction</b>           | Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.                                                              |

## Applications

- Immunoprecipitation-Western Blot
