

MaxPab®

## RBCK1 MaxPab rabbit polyclonal antibody (D01)

Catalog # H00010616-D01

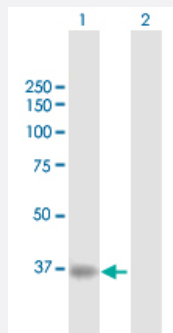

Size 100 uL

### Applications

#### Western Blot (Tissue lysate)

RBCK1 MaxPab rabbit polyclonal antibody. Western Blot analysis of RBCK1 expression in human stomach.

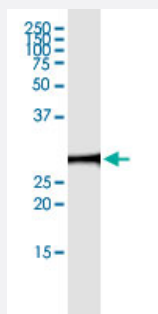

#### Western Blot (Transfected lysate)

Western Blot analysis of RBCK1 expression in transfected 293T cell line ([H00010616-T02](#)) by RBCK1 MaxPab polyclonal antibody.

Lane 1: RBCK1 transfected lysate(25.70 kDa).

Lane 2: Non-transfected lysate.

#### Immunoprecipitation

Immunoprecipitation of RBCK1 transfected lysate using anti-RBCK1 MaxPab rabbit polyclonal antibody and Protein A Magnetic Bead, and immunoblotted with RBCK1 purified MaxPab mouse polyclonal antibody (B01P) ([H00010616-B01P](#)).

### Specification

#### Product Description

Rabbit polyclonal antibody raised against a full-length human RBCK1 protein.

|                                      |                                                                                                                                                                                                                                                     |

| <b>Reactivity</b>                    | Human                                                                                                                                                                                                                                               |
| <b>Interspecies Antigen Sequence</b> | Mouse (89); Rat (90)                                                                                                                                                                                                                                |
| <b>Quality Control Testing</b>       | Antibody reactive against mammalian transfected lysate.                                                                                                                                                                                             |
| <b>Storage Buffer</b>                | No additive                                                                                                                                                                                                                                         |
| <b>Storage Instruction</b>           | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                                            |

## Applications

- Western Blot (Tissue lysate)

RBCK1 MaxPab rabbit polyclonal antibody. Western Blot analysis of RBCK1 expression in human stomach.

[Protocol Download](#)

- Western Blot (Transfected lysate)

Western Blot analysis of RBCK1 expression in transfected 293T cell line ([H00010616-T02](#)) by RBCK1 MaxPab polyclonal antibody.

Lane 1: RBCK1 transfected lysate(25.70 KDa).

Lane 2: Non-transfected lysate.

[Protocol Download](#)

- Immunoprecipitation

Immunoprecipitation of RBCK1 transfected lysate using anti-RBCK1 MaxPab rabbit polyclonal antibody and Protein A Magnetic Bead, and immunoblotted with RBCK1 purified MaxPab mouse polyclonal antibody (B01P) ([H00010616-B01P](#)).

| Gene Summary        | The protein encoded by this gene is similar to mouse UIP28/UbcM4 interacting protein. Alternative splicing has been observed at this locus, resulting in distinct isoforms. [provided by RefSeq] |
