

## LPHN1 rabbit monoclonal antibody

Catalog # H00022859-K Size 100 ug x up to 3

Specification	
Product Description	Rabbit monoclonal antibody raised against a human LPHN1 peptide using ARM Technology.
Immunogen	A synthetic peptide of human LPHN1 is used for rabbit immunization.  Customer or Abnova will decide on the preferred peptide sequence.
Host	Rabbit
Library Construction	Non-fusion antibody library from rabbit spleen ( <u>ARM Technology</u> ).
Expression	Overexpression vector and transfection into 293H cell line.
Reactivity	Human
Purification	Protein A
Isotype	lgG
Quality Control Testing	Antibody reactive against human LPHN1 peptide by ELISA and mammalian transfected lysate by W estern Blot.
Storage Buffer	In 1x PBS, pH 7.4
Storage Instruction	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
Deliverable	Up to three rabbit lgG clones of 100 ug each will be delivered to customer.
Note	<ol> <li>Customer may provide cell or tissue lysate for antibody screening.</li> <li>Rabbit monoclonal antibody generated by ARM technology is amenable to antibody engineering in cluding F(ab)<sub>2</sub>, lgG, scFv and different Fc and non-Fc conjugates per customer request.</li> </ol>

## **Applications**

Western Blot (Transfected lysate)

Protocol Download

ELISA

Gene Info — LPHN1	
Entrez GenelD	22859
GeneBank Accession#	LPHN1
Gene Name	LPHN1
Gene Alias	CIRL1, CL1, LEC2
Gene Description	latrophilin 1
Gene Ontology	Hyperlink
Gene Summary	This gene encodes a member of the latrophilin subfamily of G-protein coupled receptors (GPCR). Latrophilins may function in both cell adhesion and signal transduction. In experiments with non-hu man species, endogenous proteolytic cleavage within a cysteine-rich GPS (G-protein-coupled-re ceptor proteolysis site) domain resulted in two subunits (a large extracellular N-terminal cell adhes ion subunit and a subunit with substantial similarity to the secretin/calcitonin family of GPCRs) being non-covalently bound at the cell membrane. Latrophilin-1 has been shown to recruit the neuroto xin from black widow spider venom, alpha-latrotoxin, to the synapse plasma membrane. Alternative splicing results in multiple variants encoding distinct isoforms
Other Designations	calcium-independent alpha-latrotoxin receptor 1 lectomedin-2
