## PDCD4 rabbit monoclonal antibody

Catalog # H00027250-K Si

Size 100 ug x up to 3

Specification	
Product Description	Rabbit monoclonal antibody raised against a human PDCD4 peptide using ARM Technology.
Immunogen	A synthetic peptide of human PDCD4 is used for rabbit immunization. Customer or Abnova will decide on the preferred peptide sequence.
Host	Rabbit
Library Construction	Non-fusion antibody library from rabbit spleen (ARM Technology).
Expression	Overexpression vector and transfection into 293H cell line.
Reactivity	Human
Purification	Protein A
lsotype	lgG
Quality Control Testing	Antibody reactive against human PDCD4 peptide by ELISA and mammalian transfected lysate by W estern Blot.
Storage Buffer	In 1x PBS, pH 7.4
Storage Instruction	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
Deliverable	Up to three rabbit IgG clones of 100 ug each will be delivered to customer.
Note	<ol> <li>Customer may provide cell or tissue lysate for antibody screening.</li> <li>Rabbit monoclonal antibody generated by ARM technology is amenable to antibody engineering in cluding F(ab)<sub>2</sub>, lgG, scFv and different Fc and non-Fc conjugates per customer request.</li> </ol>

## Applications

• Western Blot (Transfected lysate)

Protocol Download

• ELISA

Gene Info — PDCD4	
Entrez GenelD	27250
GeneBank Accession#	PDCD4
Gene Name	PDCD4
Gene Alias	H731, MGC33046, MGC33047
Gene Description	programmed cell death 4 (neoplastic transformation inhibitor)
Omim ID	<u>608610</u>
Gene Ontology	Hyperlink
Gene Summary	This gene encodes a protein localized to the nucleus in proliferating cells. Expression of this gene is modulated by cytokines in natural killer and T cells. The gene product is thought to play a role in apoptosis but the specific role has not yet been determined. Two transcripts encoding different is oforms have been identified. [provided by RefSeq
Other Designations	OTTHUMP0000020483 nuclear antigen H731 programmed cell death 4

## Disease
