

AADAT (Human) Recombinant Protein (Q01)

Catalog # H00051166-Q01

Size 25 ug, 10 ug

Applications

Specification

| | |
|--------------------------------------|---|
| Product Description | Human AADAT partial ORF (NP_057312, 326 a.a. - 425 a.a.) recombinant protein with GST-tag at N-terminal. |
| Sequence | YSNQKDAILAAADKWLTGLAEWHVPAAGMFLWIKVKGINDVKELIEEKAVKMGVLMPLPGNAFYVD SSAPSPYLRAFSSASPEQMDVAFQVLAQLIKESL |
| Host | Wheat Germ (in vitro) |
| Theoretical MW (kDa) | 36.74 |
| Interspecies Antigen Sequence | Mouse (72); Rat (71) |
| Preparation Method | in vitro wheat germ expression system |
| Purification | Glutathione Sepharose 4 Fast Flow |
| Quality Control Testing | 12.5% SDS-PAGE Stained with Coomassie Blue. |
| Storage Buffer | 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer. |
| Storage Instruction | Store at -80°C. Aliquot to avoid repeated freezing and thawing. |
| Note | Best use within three months from the date of receipt of this protein. |

Applications

- Enzyme-linked Immunoabsorbent Assay
- Western Blot (Recombinant protein)
- Antibody Production
- Protein Array

Gene Info — AADAT

Entrez GeneID [51166](#)

GeneBank Accession# [NM_016228](#)

Protein Accession# [NP_057312](#)

Gene Name AADAT

Gene Alias KAT2, KATII

Gene Description aminoadipate aminotransferase

Gene Ontology [Hyperlink](#)

Gene Summary This gene encodes a protein that is highly similar to mouse and rat kynurenine aminotransferase II. The rat protein is a homodimer with two transaminase activities. One activity is the transamination of alpha-aminoadipic acid, a final step in the saccaropine pathway which is the major pathway for L-lysine catabolism. The other activity involves the transamination of kynurenine to produce kynurenine acid, the precursor of kynurenic acid which has neuroprotective properties. Two alternative transcripts encoding the same isoform have been identified, however, additional alternative transcripts and isoforms may exist. [provided by RefSeq]

Other Designations L kynurenine/alpha aminoadipate aminotransferase|L-kynurenine/alpha-aminoadipate aminotransferase|alpha-aminoadipate aminotransferase|kynurenine aminotransferase II
