

# UEVLD mouse monoclonal antibody (hybridoma)

Catalog # H00055293-M

Size Up to 5 Clones

## Specification

|                               |                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Description           | Mouse monoclonal antibody raised against a full-length recombinant UEVLD.                                                                                                                                                                                                                                                                                                                  |
| Immunogen                     | UEVLD (AAH64566.1, 1 a.a. ~ 357 a.a) full-length recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.                                                                                                                                                                                                                                                                      |

| Host                          | Mouse                                                                                                                                                                                                                                                                                                                                                                                      |
| Reactivity                    | Human                                                                                                                                                                                                                                                                                                                                                                                      |
| Interspecies Antigen Sequence | Mouse (79)                                                                                                                                                                                                                                                                                                                                                                                 |
| Quality Control Testing       | Antibody reactivity and specificity confirmed by ELISA and Western Blot.                                                                                                                                                                                                                                                                                                                   |
| Deliverables                  | Up to 5 positive hybridoma clones will be delivered to customer in the cryotube format.                                                                                                                                                                                                                                                                                                    |
| Note                          | Customer should check the viability of the hybridomas within one month from the date of receipt. Fee -for-service of long term hybridoma storage can be performed upon customer's request.                                                                                                                                                                                                 |

## Applications

- Western Blot (Transfected lysate)

[Protocol Download](#)

- Western Blot (Recombinant protein)

[Protocol Download](#)

- ELISA

## Gene Info — UEVLD

**Entrez GeneID** [55293](#)

**GeneBank Accession#** [BC064566.1](#)

**Protein Accession#** [AAH64566.1](#)

**Gene Name** UEVLD

**Gene Alias** ATTP, FLJ11068, UEV3

**Gene Description** UEV and lactate/malate dehydrogenase domains

**Omim ID** [610985](#)

**Gene Ontology** [Hyperlink](#)

**Other Designations** signaling molecule ATTP|ubiquitin-conjugating enzyme E2-like
