

RETN monoclonal antibody (M04), clone 3G11

Catalog # H00056729-M04

Size 100 ug

Specification

Product Description	Mouse monoclonal antibody raised against a full length recombinant RETN.
----------------------------	--

Immunogen	RETN recombinant protein.
------------------	---------------------------

Sequence	N/A
-----------------	-----

Host	Mouse
-------------	-------

Reactivity	Human
-------------------	-------

Interspecies Antigen Sequence	Rat (54)
--------------------------------------	----------

Isotype	IgG2a Kappa
----------------	-------------

Quality Control Testing	Antibody Reactive Against Recombinant Protein.
--------------------------------	--

Storage Buffer	In 1x PBS, pH 7.4
-----------------------	-------------------

Storage Instruction	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
----------------------------	--

Applications

- ELISA

Gene Info — RETN

Entrez GeneID	56729
----------------------	-----------------------

GeneBank Accession#	N/A
----------------------------	---------------------

Protein Accession#	-
---------------------------	-------------------

Gene Name	RETN
Gene Alias	ADSF, FIZZ3, MGC126603, MGC126609, RETN1, RSTN, XCP1
Gene Description	resistin
Omim ID	125853 605565
Gene Ontology	Hyperlink
Gene Summary	This gene belongs to the family defined by the mouse resistin-like genes. The characteristic feature of this family is the C-terminal stretch of 10 cys residues with identical spacing. The mouse homolog of this protein is secreted by adipocytes, and may be the hormone potentially linking obesity to type II diabetes. [provided by RefSeq]
Other Designations	C/EBP-epsilon regulated myeloid-specific secreted cysteine-rich protein precursor 1 found in inflammatory zone 3
