

Full-Length

# CCNL1 (Human) Recombinant Protein (P01)

Catalog # H00057018-P01

Size 25 ug, 10 ug

## Applications

## Specification

|                               |                                                                                                                                                                                    |
|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Description           | Human CCNL1 full-length ORF ( AAH38394, 1 a.a. - 172 a.a.) recombinant protein with GST-tag at N-terminal.                                                                         |
| Sequence                      | MASGPHSTATAAAAASSAAPSAGGSSSGTTTTTTTTGGILIGDRLYSEVSLTIDHSLIPEERLSPTP<br>SMQDGLDLPSETDLRLGCELIQAAGILLRLPQVAMATGQVLFHRFFYSKSFVKHSFEIVAMACINL<br>ASKIEEAPRRIRDVINVFHHLRQLRGKSDQLHLPKPG |
| Host                          | Wheat Germ (in vitro)                                                                                                                                                              |
| Theoretical MW (kDa)          | 44.66                                                                                                                                                                              |
| Interspecies Antigen Sequence | Mouse (96); Rat (97)                                                                                                                                                               |
| Preparation Method            | <a href="#">in vitro wheat germ expression system</a>                                                                                                                              |
| Purification                  | Glutathione Sepharose 4 Fast Flow                                                                                                                                                  |
| Quality Control Testing       | 12.5% SDS-PAGE Stained with Coomassie Blue.                                                                                                                                        |
| Storage Buffer                | 50 mM Tris-HCl, 10 mM reduced Glutathione, pH=8.0 in the elution buffer.                                                                                                           |
| Storage Instruction           | Store at -80°C. Aliquot to avoid repeated freezing and thawing.                                                                                                                    |

## Note

Best use within three months from the date of receipt of this protein.

## Applications

- Enzyme-linked Immunoabsorbent Assay
- Western Blot (Recombinant protein)
- Antibody Production
- Protein Array

## Gene Info — CCNL1
