| Storage Buffer          | In 1x PBS, pH 7.4                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Storage Instruction     | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## Applications

- Western Blot (Transfected lysate)

[Protocol Download](#)

- Immunofluorescence (Transfected cell)

- Flow Cytometry (Transfected cell)

## Gene Info — ANKRD5

**Entrez GeneID** [63926](#)

**GeneBank Accession#** [BC022878.2](#)

**Protein Accession#** [AAH22878.1](#)

**Gene Name** ANKRD5

**Gene Alias** FLJ21669, dJ839B4.6

**Gene Description** ankyrin repeat domain 5

**Gene Ontology** [Hyperlink](#)

**Other Designations** OTTHUMP00000030262|OTTHUMP00000030263|ankyrin repeat domain protein 5
