

DNAxPAb

Hard-to-Find  
Antibody

# TMEM237 DNAxPab

Catalog # H00065062-W01P      Size 200 ug

## Specification

|                         |                                                                                                             |
|-------------------------|-------------------------------------------------------------------------------------------------------------|
| Product Description     | Rabbit polyclonal antibody raised against a partial-length human TMEM237 DNA using DNAx™ Immune technology. |
| Technology              | <a href="#">DNAx™ Immune</a>                                                                                |
| Immunogen               | Extracellular membrane domain (ECD) human DNA                                                               |
| Host                    | Rabbit                                                                                                      |
| Reactivity              | Human                                                                                                       |
| Purification            | Protein A                                                                                                   |
| Quality Control Testing | Antibody reactive against mammalian transfected lysate.                                                     |
| Storage Buffer          | In 1x PBS, pH 7.4                                                                                           |
| Storage Instruction     | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                    |

## Applications

- Western Blot (Transfected lysate)

[Protocol Download](#)

- Immunofluorescence (Transfected cell)
- Flow Cytometry (Transfected cell)

## Gene Info — TMEM237

|                     |                                                                           |
|---------------------|---------------------------------------------------------------------------|
| Entrez GeneID       | <a href="#">65062</a>                                                     |
| GeneBank Accession# | <a href="#">JF432141.1</a>                                                |
| Protein Accession#  | <a href="#">ADZ15358.1</a>                                                |
| Gene Name           | TMEM237                                                                   |
| Gene Alias          | DKFZp313L091, FLJ33282                                                    |
| Gene Description    | amyotrophic lateral sclerosis 2 (juvenile) chromosome region, candidate 4 |
| Gene Ontology       | <a href="#">Hyperlink</a>                                                 |
| Gene Summary        | O                                                                         |
| Other Designations  | ALS2CR4 protein, N-terminus truncated                                     |
