

MaxPab®

# ZNF426 MaxPab mouse polyclonal antibody (B01P)

Catalog # H00079088-B01P

Size 50 ug

## Applications

### Western Blot (Transfected lysate)

Western Blot analysis of ZNF426 expression in transfected 293T cell line ([H00079088-T01](#)) by ZNF426 MaxPab polyclonal antibody.

Lane 1: ZNF426 transfected lysate(60.94 KDa).

Lane 2: Non-transfected lysate.

## Specification

|                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| Interspecies Antigen Sequence | Mouse (73); Rat (74)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Quality Control Testing       | Antibody reactive against mammalian transfected lysate.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

**Storage Buffer**

In 1x PBS, pH 7.4

**Storage Instruction**

Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

## Applications

- Western Blot (Transfected lysate)

Western Blot analysis of ZNF426 expression in transfected 293T cell line ([H00079088-T01](#)) by ZNF426 MaxPab polyclonal antibody.

Lane 1: ZNF426 transfected lysate(60.94 KDa).

Lane 2: Non-transfected lysate.
