

## OR51B4 rabbit monoclonal antibody

Catalog # H00079339-K Size 100 ug x up to 3

| Specification           |                                                                                                                                                                                                                                                                                                 |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Description     | Rabbit monoclonal antibody raised against a human OR51B4 peptide using ARM Technology.                                                                                                                                                                                                          |
| Immunogen               | A synthetic peptide of human OR51B4 is used for rabbit immunization.  Customer or Abnova will decide on the preferred peptide sequence.                                                                                                                                                         |
| Host                    | Rabbit                                                                                                                                                                                                                                                                                          |
| Library Construction    | Non-fusion antibody library from rabbit spleen ( <u>ARM Technology</u> ).                                                                                                                                                                                                                       |
| Expression              | Overexpression vector and transfection into 293H cell line.                                                                                                                                                                                                                                     |
| Reactivity              | Human                                                                                                                                                                                                                                                                                           |
| Purification            | Protein A                                                                                                                                                                                                                                                                                       |
| Isotype                 | lgG                                                                                                                                                                                                                                                                                             |
| Quality Control Testing | Antibody reactive against human OR51B4 peptide by ELISA and mammalian transfected lysate by Western Blot.                                                                                                                                                                                       |
| Storage Buffer          | In 1x PBS, pH 7.4                                                                                                                                                                                                                                                                               |
| Storage Instruction     | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                                                                                        |
| Deliverable             | Up to three rabbit lgG clones of 100 ug each will be delivered to customer.                                                                                                                                                                                                                     |
| Note                    | <ol> <li>Customer may provide cell or tissue lysate for antibody screening.</li> <li>Rabbit monoclonal antibody generated by ARM technology is amenable to antibody engineering in cluding F(ab)<sub>2</sub>, lgG, scFv and different Fc and non-Fc conjugates per customer request.</li> </ol> |

## **Applications**

Western Blot (Transfected lysate)

| Gene Summary        | Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response tha t triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptor s share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. T he olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms.
