

DNAxPAb

Hard-to-Find  
Antibody

# KCTD17 DNAxPab

Catalog # H00079734-W01P      Size 200 ug

## Specification

|                                |                                                                                                            |
|--------------------------------|------------------------------------------------------------------------------------------------------------|
| <b>Product Description</b>     | Rabbit polyclonal antibody raised against a partial-length human KCTD17 DNA using DNAx™ Immune technology. |
| <b>Technology</b>              | <a href="#">DNAx™ Immune</a>                                                                               |
| <b>Immunogen</b>               | Extracellular membrane domain (ECD) human DNA                                                              |
| <b>Host</b>                    | Rabbit                                                                                                     |
| <b>Reactivity</b>              | Human                                                                                                      |
| <b>Purification</b>            | Protein A                                                                                                  |
| <b>Quality Control Testing</b> | Antibody reactive against mammalian transfected lysate.                                                    |
| <b>Storage Buffer</b>          | In 1x PBS, pH 7.4                                                                                          |
| <b>Storage Instruction</b>     | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                   |

## Applications

- Western Blot (Transfected lysate)  
[Protocol Download](#)
- Immunofluorescence (Transfected cell)
- Flow Cytometry (Transfected cell)

## Gene Info — KCTD17

|                     |                                                        |
