Gene Description

NIMA (never in mitosis gene a)- related kinase 11

Omim ID[609779](#)**Gene Ontology**[Hyperlink](#)**Gene Summary**

This gene encodes a member of the never in mitosis gene A family of kinases. The encoded protein localizes to the nucleoli, and may function with NEK2A in the S-phase checkpoint. The encoded protein appears to play roles in DNA replication and response to genotoxic stress. Alternatively spliced transcript variants have been described
