

MaxPab®

# DCAKD purified MaxPab rabbit polyclonal antibody (D01P)

Catalog # H00079877-D01P

Size 100 ug

## Applications

### Western Blot (Transfected lysate)

Western Blot analysis of DCAKD expression in transfected 293T cell line ([H00079877-T02](#)) by DCAKD MaxPab polyclonal antibody.

Lane 1: DCAKD transfected lysate(26.50 KDa).

Lane 2: Non-transfected lysate.

## Specification

|                               |                                                                                                                                                                                                                                                 |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Description           | Rabbit polyclonal antibody raised against a full-length human DCAKD protein.                                                                                                                                                                    |
| Immunogen                     | DCAKD (NP_079095.2, 1 a.a. ~ 231 a.a) full-length human protein.                                                                                                                                                                                |
