Gene Name PSRC1

Gene Alias DDA3, FP3214, MGC1780, RP11-297O4.2

Gene Description proline/serine-rich coiled-coil 1

Gene Ontology [Hyperlink](#)

Gene Summary This gene encodes a proline-rich protein. Studies of the related mouse gene suggest that this gene is regulated by p53 and may participate in p53-mediated growth suppression. Alternatively spliced transcript variants encoding different isoforms have been described. [provided by RefSeq]
