

MaxPab®

# ZNF101 purified MaxPab mouse polyclonal antibody (B01P)

Catalog # H00094039-B01P

Size 50 ug

## Applications

### Western Blot (Transfected lysate)

Western Blot analysis of ZNF101 expression in transfected 293T cell line ([H00094039-T01](#)) by ZNF101 MaxPab polyclonal antibody.

Lane 1: ZNF101 transfected lysate(34.76 KDa).

Lane 2: Non-transfected lysate.

## Specification

|                         |                                                                                                                                                                                                                                                                                                                                             |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Description     | Mouse polyclonal antibody raised against a full-length human ZNF101 protein.                                                                                                                                                                                                                                                                |
| Immunogen               | ZNF101 (AA19681.1, 1 a.a. ~ 316 a.a) full-length human protein.                                                                                                                                                                                                                                                                             |

| Host                    | Mouse                                                                                                                                                                                                                                                                                                                                       |
| Reactivity              | Human                                                                                                                                                                                                                                                                                                                                       |
| Quality Control Testing | Antibody reactive against mammalian transfected lysate.                                                                                                                                                                                                                                                                                     |
| Storage Buffer          | In 1x PBS, pH 7.4                                                                                                                                                                                                                                                                                                                           |
| Storage Instruction     | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                                                                                                                                    |

## Applications

- Western Blot (Transfected lysate)

Western Blot analysis of ZNF101 expression in transfected 293T cell line ([H00094039-T01](#)) by ZNF101 MaxPab polyclonal antibody.

Lane 1: ZNF101 transfected lysate(34.76 KDa).

Lane 2: Non-transfected lysate.
