

MaxPab®

# C14orf28 MaxPab mouse polyclonal antibody (B01P)

Catalog # H00122525-B01P

Size 50 ug

## Applications

### Western Blot (Transfected lysate)

Western Blot analysis of C14orf28 expression in transfected 293T cell line ([H00122525-T01](#)) by C14orf28 MaxPab polyclonal antibody.

Lane 1: C14orf28 transfected lysate(34.1 KDa).

Lane 2: Non-transfected lysate.

## Specification

|                               |                                                                                                                                                                                                                                                                                                                                       |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Description           | Mouse polyclonal antibody raised against a full-length human C14orf28 protein.                                                                                                                                                                                                                                                        |
| Immunogen                     | C14orf28 (NP_001017923.1, 1 a.a. ~ 310 a.a) full-length human protein.                                                                                                                                                                                                                                                                |

| Reactivity                    | Human                                                                                                                                                                                                                                                                                                                                 |
| Interspecies Antigen Sequence | Mouse (96); Rat (97)                                                                                                                                                                                                                                                                                                                  |
| Quality Control Testing       | Antibody reactive against mammalian transfected lysate.                                                                                                                                                                                                                                                                               |
| Storage Buffer                | In 1x PBS, pH 7.4                                                                                                                                                                                                                                                                                                                     |
| Storage Instruction           | Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.                                                                                                                                                                                                                                                              |

## Applications

- Western Blot (Transfected lysate)

Western Blot analysis of C14orf28 expression in transfected 293T cell line ([H00122525-T01](#)) by C14orf28 MaxPab polyclonal antibody.

Lane 1: C14orf28 transfected lysate(34.1 KDa).

Lane 2: Non-transfected lysate.
