

## OR1M1 rabbit monoclonal antibody

Catalog # H00125963-K Size 100 ug x up to 3

Rabbit monoclonal antibody raised against a human OR1M1 peptide using ARM Technology.
A synthetic peptide of human OR1M1 is used for rabbit immunization.  Customer or Abnova will decide on the preferred peptide sequence.
Rabbit
Non-fusion antibody library from rabbit spleen (ARM Technology).
Overexpression vector and transfection into 293H cell line.
Human
Protein A
lgG
Antibody reactive against human OR1M1 peptide by ELISA and mammalian transfected lysate by W estern Blot.
In 1x PBS, pH 7.4
Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
Up to three rabbit lgG clones of 100 ug each will be delivered to customer.
1. Customer may provide cell or tissue lysate for antibody screening.  2. Rabbit monoclonal antibody generated by ARM technology is amenable to antibody engineering in cluding F(ab) <sub>2</sub> , lgG, scFv and different Fc and non-Fc conjugates per customer request.

## **Applications**

Western Blot (Transfected lysate)

Protocol Download

ELISA

Gene Info — OR1M1	
Entrez GenelD	125963
GeneBank Accession#	<u>OR1M1</u>
Gene Name	OR1M1
Gene Alias	OR19-5, OR19-6
Gene Description	olfactory receptor, family 1, subfamily M, member 1
Gene Ontology	<u>Hyperlink</u>
Gene Summary	Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptor s share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. [provided by RefSeq
Other Designations	olfactory receptor OR19-5

## Pathway

Olfactory transduction
