

# UBXN10 mouse monoclonal antibody (hybridoma)

Catalog # H00127733-M

Size Up to 5 Clones

## Specification

|                               |                                                                                                                                                                                                                                                                                                         |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Description           | Mouse monoclonal antibody raised against a full-length recombinant UBXN10.                                                                                                                                                                                                                              |
| Immunogen                     | UBXN10 (NP_689589.1, 1 a.a. ~ 280 a.a) full-length recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.                                                                                                                                                                                 |

| Host                          | Mouse                                                                                                                                                                                                                                                                                                   |
| Reactivity                    | Human                                                                                                                                                                                                                                                                                                   |
| Interspecies Antigen Sequence | Mouse (68); Rat (67)                                                                                                                                                                                                                                                                                    |
| Quality Control Testing       | Antibody reactivity and specificity confirmed by ELISA and Western Blot.                                                                                                                                                                                                                                |
| Deliverables                  | Up to 5 positive hybridoma clones will be delivered to customer in the cryotube format.                                                                                                                                                                                                                 |
| Note                          | Customer should check the viability of the hybridomas within one month from the date of receipt. Fee -for-service of long term hybridoma storage can be performed upon customer's request.                                                                                                              |

## Applications

- Western Blot (Transfected lysate)

[Protocol Download](#)

- Western Blot (Recombinant protein)

[Protocol Download](#)

- ELISA

## Gene Info — UBXN10

**Entrez GeneID** [127733](#)

**GeneBank Accession#** [NM\\_152376.2](#)

**Protein Accession#** [NP\\_689589.1](#)

**Gene Name** UBXN10

**Gene Alias** FLJ25429, UBXD3

**Gene Description** UBX domain protein 10

**Gene Ontology** [Hyperlink](#)

**Other Designations** OTTHUMP00000002792|UBX domain containing 3
