

## AMTN rabbit monoclonal antibody

Catalog # H00401138-K Size 100 ug x up to 3

Specification	
Product Description	Rabbit monoclonal antibody raised against a human AMTN peptide using ARM Technology.
Immunogen	A synthetic peptide of human AMTN is used for rabbit immunization.  Customer or Abnova will decide on the preferred peptide sequence.
Host	Rabbit
Library Construction	Non-fusion antibody library from rabbit spleen (ARM Technology).
Expression	Overexpression vector and transfection into 293H cell line.
Reactivity	Human
Purification	Protein A
Isotype	lgG
Quality Control Testing	Antibody reactive against human AMTN peptide by ELISA and mammalian transfected lysate by We stern Blot.
Storage Buffer	In 1x PBS, pH 7.4
Storage Instruction	Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.
Deliverable	Up to three rabbit lgG clones of 100 ug each will be delivered to customer.
Note	<ol> <li>Customer may provide cell or tissue lysate for antibody screening.</li> <li>Rabbit monoclonal antibody generated by ARM technology is amenable to antibody engineering in cluding F(ab)<sub>2</sub>, lgG, scFv and different Fc and non-Fc conjugates per customer request.</li> </ol>

## **Applications**

Western Blot (Transfected lysate)

Protocol Download

ELISA

Gene Info — AMTN	
Entrez GenelD	401138
GeneBank Accession#	AMTN
Gene Name	AMTN
Gene Alias	MGC148132, MGC148133, UNQ689
Gene Description	amelotin
Omim ID	610912
Gene Ontology	<u>Hyperlink</u>
Gene Summary	The mineralized portions of teeth, the dentin and enamel, are formed by mesenchyme-derived od ontoblasts and epithelium-derived ameloblasts, respectively. As ameloblasts differentiate, they de posit specific proteins necessary for enamel formation, including amelogenin (AMELX; MIM 3003 91), enamelin (ENAM; MIM 606585), and ameloblastin (AMBN; MIM 601259), in the organic enamel matrix. Amelotin is specifically expressed in maturation-stage ameloblasts (lwasaki et al., 20 05 [PubMed 16304441]).[supplied by OMIM
Other Designations	RSTI689
