

Cotinine ELISA Kit

Catalog # KA0930

Size 1 Kit

Specification

Product Description	Cotinine ELISA Kit is used for the measurement of Cotinine.
----------------------------	---

Suitable Sample	Plasma, Serum, Urine or Saliva
------------------------	--------------------------------

Sample Volume	10 uL
----------------------	-------

Label	HRP-conjugate
--------------	---------------

Detection Method	Colorimetric
-------------------------	--------------

Calibration Range	5 to 100 ng/mL
--------------------------	----------------

Limit of Detection	1 ng/mL
---------------------------	---------

Reactivity	Human
-------------------	-------

Regulation Status	For research use only (RUO)
--------------------------	-----------------------------

Storage Instruction	Store the kit at 4°C.
----------------------------	-----------------------

Applications

- Qualitative

Publication Reference

- [Effect of children secondhand smoke exposure associated with GABA concentration: Influence from parents who are extremely heavy smokers in urban households.](#)
