

Secreted Alkaline Phosphatase Reporter Gene Assay Kit (Luminescence)

Catalog # KA1362 Size 1 Kit

Applications

The standard curve is for the purpose of illustration only and should not be used to calculate unknowns. A standard curve should be generated each time the assay is performed.

Specification

Product Description

Secreted Alkaline Phosphatase Reporter Gene Assay Kit (Luminescence) provides a simple chemiluminescence method for the sensitive quantitation of SEAP in conditioned cell culture medium from transfected cells.

Regulation Status

For research use only (RUO)

Quality Control Testing

Standard curve
The standard curve is for the purpose of illustration only and should not be used to calculate unknowns. A standard curve should be generated each time the assay is performed.

Storage Instruction

Store the kit at 4°C temporarily. For best results, store the components as described in the protocol.

Applications

- Functional Study

Publication Reference

- [TIRC7 inhibits Th1 cells by upregulating the expression of CTLA-4 and STAT3 in mice with acute graft-versus-host disease.](#)
