

JMJD2 Demethylase Activity/Inhibition Assay Kit (Colorimetric)

Catalog # KA1526 Size 1 Kit

Applications

The standard curve is for the purpose of illustration only and should not be used to calculate unknowns. A standard curve should be generated each time the assay is performed.

Specification

Product Description	JMJD2 Demethylase Activity/Inhibition Assay Kit (Colorimetric) is use for screening JMJD2 demethylase inhibitors.
Suitable Sample	Nuclear extracts or JMJD2 subtypes (JMJD2A-JMJD2F) using purified enzymes from a broad range of species such as mammals, plants, fungi, and bacteria, in a variety of forms including cultured cells and fresh tissues
Detection Method	Colorimetric
Regulation Status	For research use only (RUO)
Quality Control Testing	Standard Curve The standard curve is for the purpose of illustration only and should not be used to calculate unknowns. A standard curve should be generated each time the assay is performed.
Storage Instruction	Store components of the kit at room temperature, 4°C or -20°C away from light as described in the protocol.

Applications

- Functional Study
