Specification

Product Description	Monoamine Oxidase Assay Kit is a quantitative determination of monoamine oxidase activity.
Suitable Sample	Biological Sample
Detection Method	Fluorometric
Assay Type	Quantitative
Limit of Detection	0.01 U/L
Regulation Status	For research use only (RUO)
Storage Instruction	Store all components at -20°C.
Note	Result Data Result Data

Applications

- Functional Study

Publication Reference

- [In Vitro and in Vivo Neuroprotective Effects of Walnut \(Juglandis Semen\) in Models of Parkinsons Disease.](#)
