PRKCQ (Human) Cell-Based ELISA Kit

Catalog # KA3453 Size 1 Kit

Specification

Product Description	PRKCQ (Human) Cell-Based ELISA Kit is an indirect enzyme-linked immunoassay for qualitative determination of PRKCQ expression in cultured cells.
Suitable Sample	Attached Cell, Loosely Attached Cell, Suspension Cell
Label	HRP-conjugated
Detection Method	Colorimetric
Assay Type	Qualitative
Reactivity	Human, Mouse, Rat
Regulation Status	For research use only (RUO)
Storage Instruction	Store the kit at 4°C.

Applications

- Qualitative

Gene Info — PRKCQ

Entrez GeneID	5588
Gene Name	PRKCQ
Gene Alias	MGC126514, MGC141919, PRKCT, nPKC-theta
Gene Description	protein kinase C, theta
Omim ID	600448

Gene Ontology	Hyperlink
Gene Summary	Protein kinase C (PKC) is a family of serine- and threonine-specific protein kinases that can be a ctivated by calcium and the second messenger diacylglycerol. PKC family members phosphorylat e a wide variety of protein targets and are known to be involved in diverse cellular signaling pathw ays. PKC family members also serve as major receptors for phorbol esters, a class of tumor pro moters. Each member of the PKC family has a specific expression profile and is believed to play a distinct role. The protein encoded by this gene is one of the PKC family members. It is a calciu m-independent and phospholipid-dependent protein kinase. This kinase is important for T-cell act ivation. It is required for the activation of the transcription factors NF-kappaB and AP-1, and may li nk the T cell receptor (TCR) signaling complex to the activation of the transcription factors. [provid ed by RefSeq
Other Designations	OTTHUMP00000019053|OTTHUMP00000043364|OTTHUMP00000043365

Pathway

- Adipocytokine signaling pathway
- T cell receptor signaling pathway
- Tight junction
- Vascular smooth muscle contraction

Disease

- Alzheimer Disease
- Arthritis
- Carcinoma
- Cardiovascular Diseases
- Celiac Disease
- Cerebral Hemorrhage
- Diabetes Mellitus
- Disease Progression
- Edema
- Genetic Predisposition to Disease
