

AMPK Phosphorylation Assay Kit

Catalog # KA3789

Size 1 Kit

Specification

Product Description

AMPK Phosphorylation Assay Kit measures phosphorylated AMPK in whole cells and normalizes the signal to the total protein content. The antibody recognizes both alpha-subunits and, thus, can be used for cells from all tissues (human, mouse, rat). AMPK phosphorylation (pAMPK) is measured using a fluorescent ELISA followed by total protein measurement in each well.

Suitable Sample

Cell

Detection Method

Fluorimetric

Reactivity

Human, Mouse, Rat

Regulation Status

For research use only (RUO)

Storage Instruction

Store the kit at -20°C.

Applications

- Functional Study
