

Protein Expression Kit III

Catalog # KA4124

Size 1 Kit

Specification

Product Description	The protein expression kit III is used for general purpose, automatic or manual and Plasmid or PCR DNA-Based protein synthesis using <i>in vitro</i> wheat germ system.
Pack Size	Automatic synthesis 8 Single-break strip wells.
Required Instrument	Automatic synthesis: Protomist® DT II Manual synthesis: Incubator (transcription at 37°C, translation at 15°C)
Regulation Status	For research use only (RUO)
Applied Instrument	Protomist® DT II
Storage Instruction	Store the component at -20°C or -80°C as shown on the protocol.

Applications

- Purification
