

# Lactate Dehydrogenase Assay Kit

Catalog # KA4581      Size 1 Kit

## Applications

### Result Data

Result Data

Kinetics of LDH reaction in 96-well plate assay.

Specification	
Product Description	Lactate Dehydrogenase Assay Kit is used for quantifying lactate dehydrogenase activity.
Suitable Sample	Plasma, Serum, and other sources.
Sample Volume	10 uL
Detection Method	Colorimetric
Calibration Range	2 to 200 IU/L
Limit of Detection	2 IU/L
Regulation Status	For research use only (RUO)
Storage Instruction	Store the kit at -20°C.
Note	Result Data Result Data Kinetics of LDH reaction in 96-well plate assay.

## Applications

- Functional Study
