

Tissue Total Viral Nucleic Acid Purification Kit (Pre-filled)

Catalog # KA5514

Size 4 Kits

Specification

Product Description

Tissue Total Viral Nucleic Acid Purification Kit (Pre-filled) is designed for the optimal automated extraction of total viral nucleic acid (DNA and RNA) from tissue samples.

Supplied Product

Kit content:

1. Auto Plate
 - a. Washing Buffer 1
 - b. Washing Buffer 2
 - c. Magnetic Beads
 - d. Elution Buffer
 - e. Incubation Buffer
2. Lysis Buffer
3. Binding Buffer
4. Elution Buffer
5. DNase I
6. Spin tips

Pack Size

96 reactions x4

Suitable Sample

Cells, Tissues

Nucleic Acid

DNA and RNA

Sample Size

30 - 50 mg tissues

Instrument

[SpiralPipet™](#)

Storage Instruction

Store at room temperature.

Applications

- Purification
