

Protease Activity Assay Kit (Green Fluorescence)

Catalog # KA6043 Size 1 Kit

Applications

Trypsin protease activity was analyzed by Protease Activity Assay Kit (Green Fluorescence).

Specification

Product Description	Protease Activity Assay Kit (Green Fluorescence) is a fluorimetric assay used for the measurement of protease activity.
Sample Volume	50 uL/90 uL
Detection Method	Fluorometric
Excitation	490 nm
Emission	525 nm
Regulatory Status	For research use only (RUO)
Quality Control Testing	Result data Trypsin protease activity was analyzed by Protease Activity Assay Kit (Green Fluorescence).
Storage Instruction	Store the kit at -20°C and avoid from light.

Applications

- Functional Study
